

New Concept in Sleepwear - Body Linens by Thread Count

Wednesday, 09 August 2006

Style Envy is excited to announce **Body Linens by Thread Count**. Designer, Jeena Hunget got the inspiration for her fresh, uncomplicated line of sleepwear by asking the question. *Why buy 800 thread count sheets when you don't have 800 thread count pajamas?* The answer was obvious.

Now you can select the style and the thread count of your nightie or pjs. Choose from 300,500,800. You can even get them monogrammed. Rest assured, **Body Linens by Thread Count** are available in x-small through xx-large and for him too. What a great gift idea!
